GENERAL CLEANING

Convex Security Mirrors recommend cleaning their acrylic mirror faces with soap and water and then with a clean, soft, lint free, damp cloth. Use a non-abrasive polish, such as Johnson's Pledge for a clear bright reflection.

Saturate a clean soft cloth with polish, then spray the mirror face with polish. Wipe the wetted cloth over the mirror surface. With a another clean dry cloth buff the mirror face until it is clear of polish.

DO NOT USE:

- abrasives
- acids
- solvents such as petrol and laquer thinners

GRAFFITI REMOVAL

Any graffiti should be removed from the mirror face as soon as possible and preferably within 24 hours. To remove graffiti, use a non-abrasive substance such as De-Solv-it Stain Remover. Not all graffiti cleaning agents are suitable. Failure to use an approved cleaning agent may damage the mirror surface.

SCRATCHES

To remove scratches or repair blemishes on acrylic mirror faces only, use the following products:

- For cleaning use NOVUS plastic polish #1
- For fine scratches use NOVUS plastic polish #2
- For badly scratched surfaces use NOVIS plastic polish #3 followed by #2 and #1.
